Objective

Motivated and humble Front-End Developer graduate from Noroff, eager to contribute to meaningful projects while continuing to grow as a developer. My focus is on creating user-friendly, accessible web solutions and learning from experienced professionals.

Education

Higher Professional Degree - Frontend Development
Noroff Education AS, 2023 – Present
- Built expertise in HTML, CSS, JavaScript, and React.
- Gained practical experience in responsive design, universal design, and web solution deployment.
- Final project demonstrated skills in concept-to-product transformation with teamwork and problem-solving focus.

Skills

Technical

Frontend Development: Proficient in HTML5, CSS3, JavaScript, and React.
Responsive Design: Experienced in mobile-first, adaptable designs for all devices.
Version Control: Knowledgeable in Git and GitHub for code management.
Testing & Debugging: Skilled in troubleshooting to ensure smooth user experiences.
Deployment & Hosting: Familiar with Netlify, Vercel, and other hosting platforms.

Soft Skills

- Team-oriented and eager to learn from peers.
- Focused on clean, maintainable code aligned with web standards.
- Dedicated to writing clean, maintainable, and efficient code that adheres to modern web standards.
- Strong understanding of accessibility and universal design principles.
- Receptive to feedback and committed to professional growth.

Projects

My Portfolio: mohammedabi-portfolio.netlify.app

- Designed and developed a personal portfolio showcasing completed projects and skills.
- Utilized HTML, CSS, and JavaScript to create a responsive and visually engaging experience.

Weather App
- Created a real-time weather application using a public API, with responsive layouts and dynamic rendering.

E-commerce Mockup
- Developed an interactive online store featuring API integration for product display.

Community Science Museum
- Designed and developed an educational website aimed at children and families, combining planning, design, and coding within a set deadline.

EchoPost
- Built a responsive blog management interface for an API blogging application, showcasing proficiency in HTML, CSS, and JavaScript.

Languages

- Norwegian: Fluent
- English: Fluent (spoken, written, and reading)
